Educational Background

MSc in Computer Science — Hong Kong & Shanghai Sep 2026 – Nov 2027

School of Computing and Data Science, **The University of Hong Kong (HKU)**

I will be studying at HKU Shanghai Zhangjiang Campus in 2027 as a **Delta X fellow** (granted to outstanding students)

Partial courses: Computational intelligence and machine learning, Image processing and computer vision, Large language models, Advanced database systems, etc.

BBA in Accounting with honours — Shanghai Sep 2020 – Jun 2024

School of Accountancy, **Shanghai University of Finance and Economics (SUFE)**

GPA: 3.74/4 (top 5.7% in the major)

University Outstanding Graduate

Dissertation: Machine Learning and Precision of Analyst Stock Recommendations

2024 University Outstanding Bachelor's Dissertation

Partial courses: Higher Mathematics I&II (4.0), Accounting Information Systems (4.0), Econometrics (4.0), Financial Statement Analysis (4.0), etc.

After earning my bachelor's degree, I was a PhD student in accounting at Shanghai Jiao Tong University (Sep 2024 – Feb 2025). I quit my PhD afterwards because I hope to empower myself with computer science and find work in the industry.

English Proficiency

TOEFL: 108

College English Test Band 6 (CET-6): 650 College English Test Band 4 (CET-4): 684

Honours and Awards

Second Prize in National College Students Mathematics Competition (non-math majors)	Mar 2022
Special Prize in National English Competition for College Students (Band C)	Nov 2020
Second Prize of People's Scholarship	Dec 2021
Tailong Bank Scholarship	Dec 2021

Internship Experiences

China International Capital Corporation (CICC) — Shanghai Nov 2023 – Apr 2024

Equity Research (Banking Sector)

I participated in a variety of market research projects, ranging from the role of financial institutions in Japan's real estate bubble to the asset quality and market valuation of banks.

Standard Chartered (SCB) — Shanghai Jun 2023 – Aug 2023

Shanghai Head Office

I participated in the formulation of product strategies according to market outlook, the detection of potential clients based on investment behaviour, and the design of communication plans and incentive schemes, etc.

PricewaterhouseCoopers (PwC) — Shanghai Jan 2023 – Feb 2023

Core Assurance – Financial Service Practices

I performed substantive procedures and tests of controls in the audit of some major PE/VCs and brokers in China.

Technical Competence

- **C++, Python**. In my bachelor dissertation (2024 University Outstanding Bachelor's Dissertation), I built a neural network based on historic information to predict stock prices and compared its accuracy with that of human analysts. During my undergraduate studies, I achieved the best result in class in the inventory management assignment by employing simulated annealing algorithm. I also have experience using SQL to manage financial information. I have a certain understanding of data structures and algorithms as well as some knowledge of computer systems. I am able to solve some programming problems using C++ and its Standard Template Library. I can also use statistical and visualization tools such as Stata and Tableau.
- **Strong mathematics skills and a sound foundation in accounting and finance**. During my undergraduate studies, I earned full credit in mathematical courses such as Higher Mathematics and Econometrics, as well as professional courses such as Advanced Financial Accounting, Corporate Finance, and Intermediate Microeconomics. I was awarded the Second Prize in National College Students Mathematics Competition.
- **AI literacy.** I have a basic understanding of the fundamental principles of technologies such as machine learning, natural language processing, and computer vision. I am familiar with apps development using AI agents. For example, I built my personal website https://luoyuanhao.com/ using AI: setting out the docs, scaffolding the project, and tweaking it according to my needs. I am always exploring ways to boost efficiency through AI so as to focus more on the bigger picture of projects and endeavours without compromising on details. I will abide by company's AI policy and ensure data security.

教育背景

香港大学 计算与数据科学学院 香港&上海 2026.09 – 2027.11

计算机科学与技术专业 理学硕士

作为**Delta X fellow**（授予优秀学生的奖学金），我将在2027年到港大上海张江校园学习

部分在读课程：计算智能与机器学习、图像处理与计算机视觉、大语言模型、高级数据库系统等

上海财经大学 会计学院 上海 2020.09 – 2024.06

会计学专业 管理学学士

GPA: 3.74/4 （专业前5.7%）

校优秀毕业生

毕业论文：机器学习与分析师评级的准确性，获2024校优秀毕业论文

部分课程：高等数学I&II (4.0), 会计信息系统 (4.0), 计量经济学(4.0), 财务分析与公司估值(4.0)等

本科毕业后，我曾保研上海交通大学会计学直博项目（2024年9月-2025年2月），之后出于职业规划考量退出该项目，并转向计算机领域，希望将技术与商业知识结合。

外语水平

TOEFL: 108

大学英语六级(CET-6): 650　　大学英语四级(CET-4): 684

获奖经历

全国大学生数学竞赛（非数学类）二等奖	2022.03
全国大学生英语竞赛（NECCS）C类特等奖	2020.11
人民奖学金二等奖	2021.12
泰隆银行奖学金	2021.12

实习经历

中金公司 研究部银行组 上海 2023.11 – 2024.04

CICC Equity Research (Banking Sector)

参与了多项研究课题，包括日本地产泡沫中金融机构的角色与风险处置办法、银行资产质量与市场估值表现、美国商业地产贷款违约与中小银行金融风险等。

渣打银行 上海总部 上海 2023.06 –2023.08

Standard Chartered Shanghai Head Office

参与的工作包括：根据市场前瞻汇总产品策略；根据投资行为发掘潜在客户、提供沟通方案等。

普华永道 审计与鉴证 上海 2023.01 –2023.02

PwC Audit & Assurance

参与了国内一些主要PE/VC和券商的实质性程序和控制测试工作。

实践能力

- **C++、Python**。在我的学士学位论文中，我通过历史信息训练神经网络模型，预测证券价格走势，并将结果的准确性与人类分析师比较。这项工作被评为2024校优秀本科生毕业论文。在本科会计信息系统的库存管理作业中，我运用模拟退火算法取得了全班最好成绩。此外我还有使用SQL管理财务信息的经验。我了解数据结构、算法以及计算机系统方面的知识，并能够运用C++和其STL库进行编程。我也能使用STATA、Tableau等统计与可视化工具。
- **数理能力较强，财经基础扎实。**在本科阶段，我在高等数学、计量经济学等数理课程中获满绩。在高级财务会计、公司金融、中级微观经济学等十余门专业课程中获得满绩。此外，我还荣获全国大学生数学竞赛（非数学类）二等奖。
- **懂得如何使用AI。**我对机器学习、自然语言处理、计算机视觉等技术的基本原理有一定的了解。我还有用AI agents进行应用开发的相关经验。比如，我的个人网站：https://luoyuanhao.com/，就是我通过AI构建文档、搭建项目骨架，并最终调整而成的。我不断探索如何利用AI提升工作效率，以便在注重细节的同时，将更多精力集中在问题和项目的大局。我会恪守公司AI相关政策，确保数据安全。
